For owners of Garmin GPS devices:

If you are using a Garmin portable GPS device, you can download the linked routes found above directly to your GPS.

You need to install the free Garmin Communicator browser plug-in for this to work. Once installed and you have connected your GPS to a USB port on your computer, the plug-in will allow you to click on the "Send To" button on the top left of the route page, select "Send to GPS", and will automatically download the route to your GPS' database.

Please visit <http://www8.garmin.com/products/communicator/> for more instructions, and to see which browsers and operating system versions are supported.
